## SUMMARY

Data Analytics undergraduate (CGPA 3.85, Dean's List ×4) who turns raw data into answers people can act on. **Led the team that found video tweets go viral ~6× more often across 820,000+ posts**, built a 14-table SQL database, and present results in Power BI. Outside class, I run events for a 500+ student faculty: **10 sub-directors, 4–6 events a month, 50+ company partners**. Available January 2027 for a 3-month Data Analyst internship. Indonesian Chinese, born and raised in Malaysia.

## SKILLS

- **Data & BI:** SQL (joins, subqueries, GROUP BY), Power BI (dashboards, KPI reporting), Excel, SAS, Oracle APEX, Access
- **Programming:** Python, R, Java | Google Colab, VS Code, GitHub, Google Cloud Run, Firestore
- **Analysis:** Data Cleaning, Data Modelling (ERD), Regression Analysis, Machine Learning, Data Visualisation

## EDUCATION

**Bachelor of Information Systems (Hons) (Data Analytics)** Sep 2024 – Expected Aug 2027
*Sunway University, Subang Jaya | Lancaster University, England*

- CGPA 3.85 | Dean's List (4 semesters) | Sunway Jeffrey Cheah Scholarship
- **Coursework:** Database Management, Business Intelligence, Data Mining, Analytics Engineering

**Foundation in Arts — Sunway College** Aug 2023 – Aug 2024

- CGPA 4.0 | Academic Excellence Award | Sunway Special Scholarship

## DATA PROJECTS

**Personal Gemini Journal** | **Gemini, Firestore, Cloud Run** Sep 2026

- Shipped a live AI journaling app with a dashboard charting users' mood patterns and themes.

**Predicting Viral AI Tweets** | **Power BI, Python** Aug 2026

- Found that video tweets were ~6× more likely to go viral by analysing 820,000+ AI-related tweets as team lead of 5.
- Beat 10 benchmark machine learning models with a combined (stacking) model, confirmed by significance testing ($p < 0.01$).
- Reported the results in a Power BI dashboard with 4 KPI cards and 5 interactive visuals.

**Predictive Analysis of Academic Performance** | **SAS** Aug 2026

- Explained 81% of exam-result variation (adjusted $R^2$ 0.81) across 6,600+ records with SAS regression.

**Global Waste Management Analytics** | **SAS** Dec 2025

- Linked food waste to plastic mismanagement in 2010–2019 data by merging two global datasets.

**Animal Shelter Database** | **SQL, Oracle APEX** Aug 2025

- Replaced a shelter's paper records with a 14-table Oracle APEX database (team of 6).
- Wrote 6 SQL reporting queries (outer joins, 4-table joins with GROUP BY, subqueries) to track adoptions, donations and animal health.

## LEADERSHIP

**Sunway Analytics Society — Faculty of Engineering & Technology student body**

*Events Director* Aug 2026 – Present

- Run 4–6 faculty-wide events a month by leading 10 event sub-directors, each managing a ~10-person team across PR, Creative and Secretarial.

*Events Sub-Director* Sep 2025 – Aug 2026

- Delivered ~10 events, including an industry Business Summit (400+ professionals) and a Career Bootcamp (500+ students).

- Secured 50+ company partners and drew 500+ students as Project Lead of the Sunway Engineering & Technology Career Fair 2026.

## CASE COMPETITIONS & HACKATHONS

**Accenture Case Day 2026** | **Data Analysis, Case Presentation** Oct 2026

- Found why a client's AI hiring shortlist left 27 of 120 graduate roles empty by comparing shortlist and offer-acceptance rates by university group (52% vs 68%).
- Recommended a 12-week, RM129k plan to rank on skills and roughly double the shortlist using 295 idle recruiter hours (team of 5).

**Averis x Monash Hackathon 2026** | **React** Oct 2026

- Scored a perfect 1.000 on the official scorer as a team with SDOC Verify, a tool that sorts a shipping inbox and flags mismatches between Shipping Instructions and Bills of Lading.
- Built parts of the web dashboard with AI-assisted coding, designed the slide deck and delivered the final pitch.

**Mercedes-Benz Tech Malaysia Vibathon 2026 | Top 14** Jul 2026

- Reached the national Top 14 with LumosDrive MY, an AI driver-safety concept, by producing a simulation video of its fatigue and pothole alerts.

**Top Coders Malaysia 2026 | National Finalist** | **Python** Jun 2026

- Qualified for the December 2026 National Finals by placing Top 5 in the Sunway round, solving 3 of 6 problems in Python.

**WorldQuant BRAIN Challenge | Silver Level** Jun 2026

- Reached Silver Level by submitting 4 trading alphas, each backtested and tuned for 3–4 days to pass the platform's criteria.

**Access Group Earth Day 2026 University Hackathon | 2nd Runner-Up** | **Lovable** Apr 2026

- Placed 3rd of the Top 10 Malaysian university teams by building an SME energy monitoring dashboard and pitching it to Access and MDEC judges.

## OTHER PROJECTS

**Smart Energy Monitoring System** | **HTML/CSS/JS, UML** Jul 2026

- Delivered a 22-screen web prototype backed by 50 documented test cases, leading a team of 5 across 7 Agile sprints.

## EXPERIENCE & VOLUNTEERING

**Academic Tutor (Part-time)** Aug 2025 – Present

- Tutor Mathematics, Sciences and Accounting one-on-one, building exam plans around active recall and timed practice.

**Sunway Learning Exploration Program | Student Helper** Jan 2024 – Present

- Logged 80+ volunteer hours across 20+ campus events, leading Open Day campus tours for prospective students.

**Community Service & Volunteer Work** Jan 2020 – Present

- Delivered 200+ essential items to Orang Asli communities by organising donation drives.

**90th Petaling Perdana Boy Scouts | Vice President** Jan 2015 – Dec 2022

- Managed troop operations and budgeting as Vice President and Treasurer; awarded Anugerah Rambu Pengakap Kanak-Kanak.
